## SHERIFF MUST SPEND LESS MONEY

**Supervisor Lucas Tells the Board Funds Are Running Low.**

"I move that we cut down the police appropriation to \$7000," said Lucas at last night's meeting of the Board of Supervisors.

The members of the board woke up with a start and looked at Lucas in wonderment. The florid-faced Moore turned pale.

The motion was born of a statement of ways and means by Lucas and an enthusiastic plea for retrenchment. It looked, said Supervisor Jack, as if the county was, in the near future, going to be financially abashed.

Moore was up on his feet in a moment on behalf of the police. It was not right, it was an insult to the dignity of the police department to slash their appropriation. Why not beseech about it? Why not give the poor, indigent sheriff a square deal? Ask him what he could get along with. Let him submit a proposition. Anything, everything, but the cold-blooded top proposed by "Panini Jack."

"Don't give 'em a chance to figure," said Lucas. "Put it up to 'em straight." No one seconded Lucas' motion and he had perforce to amend it along the lines suggested by the tender-hearted Moore. Half a loaf's better than no bread, figured Lucas, but when it returns from the Merchant Street oven the half loaf's apt to be pretty badly scorched.

Lucas had a field night. He resolved, proposed, seconded, curtailed and ana-thematized with unwonted vigor. One of his motions went through with bells on. It was that the Kunst property at Waikiki shall be free to bathers providing their own towels and suits. Then this, Lucas has hardly done a stroke of business which will benefit the poor of the community so much, all the time he has ornamented the board.

Present were: Chairman Smith, Supervisors Moore, Archer, Lucas, Paele, Stenographer Aea, Clerks Kalauakalani and Buffandeau, Sergeant-at-Arms Hanalei, County Engineer Gere, Harry Murray, Capt. Sam Johnson, J. J. Belser and representatives of the press. Chairman Smith was late in arriving and it was 7:50 p. m. when Clerk Kalauakalani commenced to read the minutes of the last meeting.

### THE WAILAE ROAD.

The following communication from Road Supervisor Johnson was read and the suggestion embodied therein, unanimously and favorably acted upon:

Honolulu, T. O. H., July 26th, 1906.

D. K. Kalauakalani, Esq., Clerk County of Oahu.

Sir: I respectfully beg to call the attention of the Board to the following facts:

The coral sub-grading of the Wailae road is about completed, and this Department will be ready in the beginning of August, to commence sub-grading the Wailae road. I would like to state that, on account of heavy traffic from the different quarries, a top dressing of about 6 inches should be put over the coral. The material for such, and of very good quality, is obtainable in the natural quarries about 10th avenue.

As this Department has not enough funds to work on an elaborate scale on that road, I think it would be advisable if bids were called, and have the work outside of sub-grading, such as hauling material, spreading and rolling, be done by contract, with the clause inserted that the payment for the work performed be extended for about 6 months. In this way the work can be completed in about 3 or 4 months.

I have been over the ground with Road Engineer Gere, and I believe he is ready to go ahead with the specifications, so as to commence work at an early date.

Yours respectfully,  
SAM JOHNSON,  
Road Supervisor Honolulu.

## WOODS QUILTS POLITICAL GAME

**Senator From Kohala Is Going on Visit to Cuba.**

Now Senator Palmer Woods is out of it—out of politics and, it may be, even out of Hawaii itself in the near future. Wouldn't that jar you!

"I'm going to pull my freight," said Senator Woods to an Advertiser man yesterday. "I know you people will say that I am doing it because some of my Republican friends have taken the step, but that is not the case. Whisper; I'm going to Cuba and will try raising cane, not the kind of cane you think I mean, on a very small scale and cattle on a larger one than I have ever attempted here. I will be associated with a gentleman who has been over the ground and who has secured an option on some excellent land."

### HAWAII IS ALL RIGHT.

"Hawaii is all right, I have had a prosperous business here and have been successful in many ways but I do not feel that this Territory offers the same advantages to the young man that is offered in some other sections of Uncle Sam's domain. I feel, after reading accounts that have been sent out concerning Cuba, that it is a good place for me. Besides the literature I have had at my command, I have talked with gentlemen thoroughly familiar with the conditions there. We can have the land in fee and it is better suited to grazing and I will devote most of my energies to the business with which I am most familiar."

"My visit to Honolulu at this time is solely in connection with my contemplated departure, but I do not expect to leave the Islands until October and then it will be merely for the purpose of investigating the country and taking a personal peep into the conditions. I may be disappointed with what I shall find there, but I do not expect to be. There have been several parties from Hawaii who have gone to Cuba and some of them have returned dissatisfied. Others have remained there and are, I am informed, doing well. I believe there is an opening there for a rancher and I will try it, if I am satisfied when I go down there to look around."

### LOSS TO TERRITORY.

Senator Woods was born on the Island of Hawaii and was educated here. As a young man he entered the service of the government and was assigned to a position in the customs service, remaining there until a short time after the overthrow of the monarchy in 1893. He, with several others, was asked to take oath of allegiance to the Republic after that government was formed and on declining to do so Senator Woods and his colleagues were removed from their positions.

Shortly after that he went to Hawaii and became a rancher. He met with success and invested in cattle and afterwards went into partnership with his brother, J. Frank Woods, and together they have conducted the Woods Brothers ranch for a number of years. Senator Woods lives on the slopes a few miles from Mahukona. Two or three miles away from him is the residence of his brother Frank. Both estates are to be seen from the deck of the Kinnu as she lies at anchor in the harbor at Mahukona. The Senator was married about twelve years ago to Miss Mellic Randall of Massachusetts. They have a family of interesting children. The Senator and his wife are social favorites in Honolulu as well as on the Big Island, where their hospitality is proverbial.

Senator Woods was elected to the Senate on the Democratic ticket twice and each time he had the support of many Republicans on the Big Island. He looked after the interests of the people of Hawaii regardless of politics and his fairness in matters pertaining to the welfare of the people of the Island won him a host of friends. His election to the Senate is assured at any time he desires to return to politics, but he says this declaration is final, that his two terms in the Senate are all he cares for.

### ONLY A FEW MORE LEFT.

And it was a bad day for Hawaii when Senator Woods made up his mind to quit politics and the country. Not a doubt about it. He is the kind of man that this country needs in its public affairs—and in its private business concerns, too.

Bumbers, this tendency to quit seems to be in the air. It is catching, just as the current moment. First Jack Lucas says that he has had enough, and

NICHOLAS OF RUSSIA.

## MRS. DOWSETT THE WORK FOR ACCEPTS PROMOTION PLACE TELLS

**Is Appointed Member Committee Gets Returns of the Board of Education. From All Parts of the Country.**

Yesterday Governor Carter and Secretary Atkinson signed the commission of Mrs. J. M. Dowsett as a member of the Board of Education. The position had been offered to Mrs. Dowsett several days before, and she has had the matter under consideration.

Yesterday she concluded that she could give the schools the attention that they should receive from a member of the Board of Commissioners, and signified to the Governor her willingness to undertake the responsibility. She will take the place in the Board made vacant by the resignation of Mrs. Jordan, who has served long and faithfully, and who some time ago stated that she wanted to rest and would relinquish the post so soon as some one could be found to take her place.

Mrs. Dowsett, the wife of Hon. J. M. Dowsett, holdover member of the Territorial Senate, is one of the best known women in Honolulu, and comes from one of the oldest families—a family that was prominent under the monarchy and that has always held high place. She is well known for her charitable and philanthropic work, as well as socially. She is a member of the Board of Managers of Kapiolani Maternity Home, and in that Board has always been one of the hardest workers.

She will bring to the School Board the interest of a thoroughly practical, well-read woman in all school affairs, and the interest of a mother in the training of children. She is of part Hawaiian blood, and it is thought that her services in the department will have added value because of that. Understanding the Hawaiian nature, she will be able to get closer to some of the teachers themselves than any member of the Board has so far been able to do.

The Board of Education will meet next Monday, at which time the two new commissioners, Mr. Dodge and Mrs. Dowsett, will take their seats with the body for the first time.

All the 200 tons of cargo was out of the S. S. Manchuria by 11:15 p. m. yesterday and she will sail promptly at 11 a. m.

Cheering reports of interest in Hawaii, from the Atlantic to the Pacific, formed the greater part of the matters talked over by the Hawaii Promotion Committee yesterday afternoon.

### NATIONAL IRRIGATIONISTS.

Not merely a delegate, but "a big delegation," from this Territory is invited to attend the fourteenth annual meeting of the National Irrigation Congress, to be held at Boise, Idaho, September 3 to 8 inclusive. Montie B. Gwynn, chairman of that body, writes the invitation upon its official letter paper appropriately printed in vivid green ink. He says a feature of the convention will be an exposition of sugar beets, fruits, etc., produced by irrigation, for which a number of valuable prizes in the form of silver loving cups will be given. Although he suggests a possibility that the productions of Hawaii might be excluded from the contest for prizes, yet he considers the meeting a fine opportunity for the exploiting of Hawaii's interests before a nationally influential body.

It was voted by the Committee to authorize the president to appoint any suitable men going that way this summer. Particular mention was made of Messrs. Goodale and Benton, both of them managers of large artificially irrigated plantations.

### THE MEETING ITSELF.

The meeting was called to order by Vice President A. Gartley, in the chair, who was later relieved by President John A. McCallister, other members of the Committee present being Fred C. Smith, F. L. Waldron and Secretary H. P. Wood.

Much of the subject matter of discussion is embodied in the following report from Secretary Wood:

### SECRETARY'S MESSAGE.

Honolulu, July 26, 1906.  
Chairman and Members of the Hawaii Promotion Committee.

Gentlemen: By the last mail we received a circular letter from Mr. Edgar Johnson, Secretary of the Southern California Editorial Association, stating that the following named persons had arranged to have representatives from the trip to Hawaii:

Los Angeles Times .....  
Los Angeles Examiner .....  
Los Angeles Herald .....  
Los Angeles News .....  
Los Angeles Herald-Examiner .....  
Los Angeles Journal .....

**The Russian Premier Says That Nicholas Will Not Follow a Course of Repression, but That With a Strong Hand He Will Effect Needed Reforms--Claim of Loyalty of the Army Derided--Revolutionists Smuggling Arms From England.**

(Associated Press Cablegrams.)

ST. PETERSBURG, July 27.—Premier Stolypin says that the Emperor will not follow a course of repression in dealing with the malcontents. His policy will be that of the strong hand, and will aim to reform the abuses that have crept into the government.

### DECLARES ARMY LOYAL.

The manifesto of the Premier continues with the announcement that the troops are loyal to the Czar, which is characterized as a bit of opera bouffe by the revolutionary party.

### RAID THE ALDERMEN.

A meeting of the city aldermen has been raided.

### SMUGGLING ARMS INTO RUSSIA.

LONDON, July 27.—The Russian revolutionist organization here is engaged in smuggling arms into Russia.

### REVOLUTIONISTS LOOT A TRAIN.

WARSAW, July 27.—The revolutionists stopped a train near this city and robbed it of 7500 roubles.

### JEWELRY STORE IS ROBBED.

MOSCOW, July 27.—Ten revolutionists last night raided the principal jewelry store in this city.

### PROMOTION WORK FOR THE CZAR.

ST. PETERSBURG, July 26.—The government is seeking to create the impression that the crisis has passed. Six elected members of the Council of the Empire have resigned. Orders have been issued to prevent meetings of the opponents of the government.

If Nicholas of Russia had had the firmness of purpose to stick to any policy, his condition would not be so desperate as it is today. His statement that he will deal with discontent with a strong hand comes now as something of a grim joke, and it is small wonder that the Premier's claim of loyalty for the army is characterized as a bit of opera bouffe. The Russian army in all parts of the Empire is disloyal and mutinous, of which facts it has given ample demonstration.

The cablegram that arms are being smuggled from England into Russia by the revolutionists is of deep significance. The enemies of the Czar see that the worst is coming, and are preparing for it.

## AMBASSADOR LEISHMAN PRESENTS HIS CREDENTIALS

CONSTANTINOPLE, July 27.—Ambassador Leishman has presented his credentials to the Sultan.

John G. A. Leishman, appointed Minister from the United States to Turkey, lately had his rank raised to that of an Ambassador, whereas a disposition was shown by the Turks to object. An Ambassador, it seems, has the right at all times to audience with the Sultan. A Minister must transact his business through the Sultan's Ministers. This condition placed the United States at a disadvantage in Constantinople, which disadvantage the Porte was apparently not inclined to do away with. Leishman, nevertheless, has been advanced.

## PRINCE MURAT KILLED.

MUNICH, July 27.—Prince Murat was killed here yesterday by the overturning of his automobile.

## BRYAN CALLS ON THE KING.

(Associated Press Cablegrams—Afternoon Service.)

LONDON, England, July 26.—Bryan today had a private audience with King Edward.

### FOLK TALKS TO REPUBLICANS.

JEFFERSON CITY, Mo., July 26.—Governor Folk formally welcomed the delegates to the Republican convention here. John Kennish and J. T. Neville have been nominated for Supreme Justices.

### HOTEL FIRE AT LEEDS.

LEEDS, England, July 26.—Fire has caused damage of \$750,000. The Great Northern Hotel is partially burned.

## HE SAILS A CAPTAIN AND LANDS AN ADMIRAL

Admiral Samuel W. Vory, U. S. N., in command of the local Naval Station, arrived in Honolulu on the S. S. Mongolia yesterday, this being the fifth time he has been sent to the Hawaiian Islands. Since leaving the Coast promotion has come to him, the commission being dated July 27. According to the story as given, he tends to bear admiralty, although the fact that official letters have been his notification of the promotion, preceded the rear admiral's arrival, thus, an officer of the U. S. Navy, salute being given on his first visit, to the station yesterday morning, and is also the reason why his flag as captain was raised instead of that of rear admiral.

Admiral Vory first visited Honolulu in 1889, when Kamehameha V. accompanied the Hawaiian throne, and one of the recollections of early Hawaii held by the admiral in that of seeing the majesty making a carriage tour of the waterfront in about the only carriage in the whole kingdom. During the revolution of 1893 the admiral, then an officer of the U. S. Navy, salute being given on his first visit, to the station yesterday morning, and is also the reason why his flag as captain was raised instead of that of rear admiral.
